3. Multiple Contracts (ITB 34).....	30
4. Postqualification Requirements (ITB 36.2) .....	31

## **1. Domestic Preference (ITB 32): Applicable**

If the Bidding Data Sheet so specifies, the Procuring Entity will grant a margin of preference to goods manufactured in Rwanda for the purpose of bid comparison, in accordance with the procedures outlined in subsequent paragraphs.

Bids will be classified in one of three groups, as follows:

- (a) **Group A:** Bids offering goods manufactured in Rwanda, for which (i) labor, raw materials, and components from within Rwanda account for more than thirty (30) percent of the EXW price; and (ii) the production facility in which they will be manufactured or assembled has been engaged in manufacturing or assembling such goods at least since the date of bid submission.
- (b) **Group B:** All other bids offering Goods manufactured in Rwanda.
- (c) **Group C:** Bids offering Goods manufactured outside Rwanda that have been already imported or that will be imported.

To facilitate this classification by the Procuring Entity, the Bidder shall complete whichever version of the Price Schedule furnished in the Bidding Documents is appropriate provided, however, that the completion of an incorrect version of the Price Schedule by the Bidder shall not result in rejection of its bid, but merely in the Procuring Entity's reclassification of the bid into its appropriate bid group.

The Procuring Entity will first review the bids to confirm the appropriateness of, and to modify as necessary, the bid group classification to which bidders assigned their bids in preparing their Bid Forms and Price Schedules.

All evaluated bids in each group will then be compared to determine the lowest evaluated bid of each group. Such lowest evaluated bids shall be compared with each other and if as a result of this comparison a bid from Group A or Group B is the lowest, it shall be selected for the award.

If, as a result of the preceding comparison, the lowest evaluated bid is from Group C, the lowest evaluated bid from Group C bids will then be further compared with the lowest evaluated bid from Group A, after adding to the evaluated bid price of goods offered in the bid for Group C, for the purpose of further comparison only an amount equal to ten (10) percent of the CIP (named place of destination) bid price. The lowest-evaluated bid determined from this last comparison shall be selected for the award.”

## **2. Evaluation Criteria (ITB 34.3 (d)): Not Applicable**

The Procuring Entity's evaluation of a bid may take into account, in addition to the Bid Price quoted in accordance with ITB Clause 14.6, one or more of the following factors as specified in ITB Sub-Clause 34.3(d) and in BDS referring to ITB 34.3(d), using the following criteria and methodologies.

- (a) Delivery schedule. (as per INCOTERMS specified in the BDS)

*The Goods specified in the List of Goods are required to be delivered within the acceptable time range (after the earliest and before the final date, both dates inclusive) specified in Section VI, Delivery Schedule. No credit will be given to deliveries before the earliest date, and bids offering delivery after the final date shall be treated as non-responsive. Within this acceptable period, an adjustment, as specified in BDS Sub-Clause 34.3(d), will be added, for evaluation purposes only, to the bid price of bids offering deliveries later than the "Earliest Delivery Date" specified in Section VI, Delivery Schedule.*

- (b) Deviation in payment schedule. [Insert one of the following]
  - (i) *Bidders shall state their bid price for the payment schedule outlined in the SCC. Bids shall be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in bid price they wish to offer for such alternative payment schedule. The Procuring Entity may consider the alternative payment schedule and the reduced bid price offered by the Bidder selected on the basis of the base price for the payment schedule outlined in the SCC.*
- or**
- (ii) *The SCC stipulates the payment schedule specified by the Procuring Entity. If a bid deviates from the schedule and if such deviation is considered acceptable to the Procuring Entity, the bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the bid as compared with those stipulated in the SCC, at the rate per annum specified in BDS Sub-Clause 34.3 (d).*
- (c) Cost of major replacement components, mandatory spare parts, and service. [insert one of the following]
  - (i) *The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the BDS Sub-Clause 16.3, is in the List of Goods. An adjustment equal to the total cost of these items, at the unit prices quoted in each bid, shall be added to the bid price, for evaluation purposes only.*
- or**
- (ii) *The Procuring Entity will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the BDS Sub-Clause 16.3. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the bid price, for evaluation purposes only.*
- (d) Availability in Rwanda of spare parts and after sale services for equipment offered in the bid.

An adjustment equal to the cost to the Procuring Entity of establishing the minimum service facilities and parts inventories, as outlined in BDS Sub-Clause 34.3(d), if quoted separately, shall be added to the bid price, for evaluation purposes only.

- (e) Projected operating and maintenance costs.

Operating and maintenance costs. An adjustment to take into account the operating and maintenance costs of the Goods will be added to the bid price, for evaluation purposes only, if specified in BDS Sub-Clause 34.3(d). The adjustment will be evaluated in accordance with the methodology specified in the BDS Sub-Clause 34.3(d).

- (f) Performance and productivity of the equipment. [insert one of the following]

- (i) *Performance and productivity of the equipment. An adjustment representing the capitalized cost of additional operating costs over the life of the plant will be added to the bid price, for evaluation purposes if specified in the BDS Sub-Clause 34.3(d). The adjustment will be evaluated based on the drop in the guaranteed performance or efficiency offered in the bid below the norm of 100, using the methodology specified in BDS Sub-Clause 34.3(d).*

*or*

- (ii) *An adjustment to take into account the productivity of the goods offered in the bid will be added to the bid price, for evaluation purposes only, if specified in BDS Sub-Clause 34.3(d). The adjustment will be evaluated based on the cost per unit of the actual productivity of goods offered in the bid with respect to minimum required values, using the methodology specified in BDS Sub-Clause 34.3(d).*

- (g) Specific additional criteria

*Other specific additional criteria to be considered in the evaluation and the evaluation method shall be detailed in BDS Sub-Clause 34.3(d)]*

### **3. Multiple Contracts (ITB 34): Not Applicable**

The Procuring Entity shall award multiple contracts to the Bidder that offers the lowest evaluated combination of bids (one contract per bid) and meets the post-qualification criteria (this Section III, Sub-Section ITB 36.2 Post-Qualification Requirements)

The Procuring Entity shall:

- (a) evaluate only lots or contracts that include at least the percentages of items per lot and quantity per item as specified in ITB Sub Clause 14.8
- (b) take into account:
  - the lowest-evaluated bid for each lot and
  - (i) the price reduction per lot and the methodology for its application as offered by the Bidder in its bid”

#### **4. Post-qualification Requirements (ITB 35): Not Applicable**

After determining the lowest-evaluated bid in accordance with ITB Sub-Clause 35.1, the Procuring Entity shall carry out the post-qualification of the Bidder in accordance with ITB Clause 36, using only the requirements specified. Requirements not included in the text below shall not be used in the evaluation of the Bidder's qualifications.

## PART 2 – Supplying Requirements

### Section V. Supply Requirements

#### Notes for Preparing the Schedule of Requirements

The Schedule of Requirements shall be included in the bidding documents by the Procuring Entity, and shall cover, at a minimum, a description of the goods and services to be supplied and the delivery schedule.

The objective of the Schedule of Requirements is to provide sufficient information to enable bidders to prepare their bids efficiently and accurately, in particular, the Price Schedule, for which a form is provided in Section IV. In addition, the Schedule of Requirements, together with the Price Schedule, should serve as a basis in the event of quantity variation at the time of award of contract pursuant to ITB Clause 41.

The date or period for delivery should be carefully specified, taking into account (a) the implications of delivery terms stipulated in the Instructions to Bidders pursuant to the *INCOTERMS* rules (i.e., EXW, or DDP,CIF, CIP, FOB, FCA terms—that “delivery” takes place when goods are delivered **to the carriers**), and (b) the date prescribed herein from which the Procuring Entity’s delivery obligations start (i.e., notice of award, contract signature, opening or confirmation of the letter of credit).

NB: The supplier is requested to fill the Price Schedule provided in the system. The price schedule table must be filled for each and every item/product quoted for. Meaning that the number of items quoted for is the number of tables to be filled separately.

### Attachment: Price Adjustment Formula

If in accordance with GCC 14.2, prices shall be adjustable, the following method shall be used to calculate the price adjustment:

14.2 Prices payable to the Supplier, as stated in the Contract, shall be subject to adjustment during performance of the Contract to reflect changes in the cost of labour and material components in accordance with the formula:

$$P_1 = P_0 \left[ a + \frac{bL_1}{L_0} + \frac{cM_1}{M_0} \right] - P_0$$

$$a+b+c = 1$$

in which:

$P_1$  = adjustment amount payable to the Supplier.

$P_0$  = Contract Price (base price).

$a$  = fixed element representing profits and overheads included in the Contract Price and generally in the range of five (5) to fifteen (15) percent.

$b$  = estimated percentage of labour component in the Contract Price.

$c$  = estimated percentage of material component in the Contract Price.

$L_0, L_1$  = labour indices applicable to the appropriate industry in the country of origin on the base date and date for adjustment, respectively.

$M_0, M_1$  = material indices for the major raw material on the base date and date for adjustment, respectively, in the country of origin.

The coefficients  $a$ ,  $b$ , and  $c$  as specified by the Procuring Entity are as follows:

$a$  = [insert value of coefficient]

$b$  = [insert value of coefficient]

$c$  = [insert value of coefficient]

The Bidder shall indicate the source of the indices and the base date indices in its bid.

Base date = thirty (30) days prior to the deadline for submission of the bids.

Date of adjustment = *[insert number of weeks]* weeks prior to date of shipment (representing the mid-point of the period of manufacture).

The above price adjustment formula shall be invoked by either party subject to the following further conditions:

(a) No price adjustment shall be allowed beyond the original delivery dates unless specifically stated in the extension letter. As a rule, no price adjustment shall be allowed for periods of delay for which the Supplier is entirely responsible.

The Procuring Entity will, however, be entitled to any decrease in the prices of the Goods and Services subject to adjustment.

(b) If the currency in which the Contract Price  $P_0$  is expressed is different from the currency of origin of the labour and material indices, a correction factor will be applied to avoid incorrect adjustments of the Contract Price. The correction factor shall correspond to the ratio of exchange rates between the two currencies on the base date and the date for adjustment as defined above.

(b) No price adjustment shall be payable on the portion of the Contract Price paid to the Supplier as advance payment.
